<u>Meeting Log</u>

until 23.08.: repeated emails to get a first Meeting
23.08.
Decided that first project idea was unrealistic as too computationally intensive.
Option to reimplement PAIRED with a small gridworld environment and then add milestones.

29.08.
Final project idea: Reimplementing PAIRED For Open-AI Gym Frozen Lake

09.09.
Asked for and received a deadline extension by at least 7 days.
Tip to build the environment stepwise by agent.

15.09.
Problems regarding Agent implementation.
Tips to use sigmoid or tanh instead of relu, gather multiple episodes into a dataset for the agent to train on, stop gradient for probabilities in loss calculation

after 15.09. : repeated emails to get more support and a 3 day extension due to illness of group members.
